 consequently shooting at his boss with whom he had previously been arguing. This inmate seemed genuinely penitent for his crime and demonstrated good insight into the damage done to the victim and insight into his aggressive behavior.

XIV. ASSESSMENT OF DANGEROUSNESS:

- A. His violence potential within a controlled setting is considered to be significantly below average relative to this Level II inmate population. This conclusion is based upon several factors.

On the one hand, he received a conviction for reckless driving when he was 16, and was also convicted as an adult for driving with a suspended license. At CDC, he received a CDC-115 for gambling in 1992, and he has received two CDC-128s, the last received in 1996.

On the other hand, however, he has no apparent gang associations. His juvenile criminal history and adult preincarceration criminal histories are minimal. ~~Moreover, he is a first termen.~~ He has not received a significant disciplinary in eight years and he has never received a disciplinary for violent behavior during his nine years of incarceration within CDC. He appears to have both matured during his incarceration and to have profited from his participation in self-help programs. No significant psychopathy was observed during the clinical interview.

Therefore, in light of these factors, his violence potential is considered to be significantly below average relative to this Level II inmate population.

- B. If released to the community, his violence potential is considered to be no more than the average citizen in the community.
- C. Substance abuse is a risk factor which may be a precursor to violence for this individual.

XV. CLINICIAN OBSERVATIONS/COMMENTS/RECOMMENDATIONS:

- A. This inmate is competent and responsible for his behavior. He has the capacity to abide by institutional standards.
- B. This inmate does not have a mental health disorder which would necessitate treatment either during his incarceration period or upon parole.
- C. This inmate does appear to have a drug abuse problem and continued participation in Narcotics Anonymous is suggested both during his incarceration within CDC and as a contingency for parole.
